

STOP BUYING ELECTRICITY AND MAKE BIG MONEY SELLING THIS INFO TO OTHERS!!

TIRED OF \$100-\$150 ELECTRIC BILLS?

If we could prove (remember PROVE) to you that using today's existing technology, you could reduce your average electric bills by as much as a full 90% ... to as low as \$10-\$15 per month, would you like to learn more?

Well, by combining very recent developments with a unique, innovative design pioneered by **EI SYSTEMS**, it's actually now possible to PRODUCE ALL YOUR OWN ELECTRICITY and completely eliminate those expensive, aggravating and never-ending electric bills! The **EI SYSTEM** is not a pie-in-the-sky system

for producing electricity "out of thin air". It is a highly sophisticated utilization of computer-age technology using common components that can now be obtained right off the shelf!

Technology that the big power companies desperately hoped would never get in to the hands of their "life-long" customers.

The **EI SYSTEM** requires no expensive Solar Panels and you don't have to be an electrical engineer to install it. Each component simply attaches and/or plugs into the next component. If you can follow simple step-by-step instructions, you can very easily assemble the entire system in 1-2 hours.

NOW YOU CAN REDUCE YOUR ELECTRICITY COST TO 10-\$15 PER MONTH!

Yes, it's now possible to produce enough electricity to power your entire home or office, including ALL the electrical devices inside and out. Lights, refrigerator, heat, air conditioner, dishwasher, dryer, TV, computer, VCR, etc., etc. All the items that you previously thought would be impossible to operate without the assistance of our "friendly" Electric Power Companies.

Until now, we've all had to accept their outrageous bills in relative silence, because there simply was nowhere else to go for service.

However, the "Grand Monopoly" is finally over! The **EI SYSTEM** is a jam-packed, fact filled information manual that will teach you everything you need to know to install your own electrical power unit to provide electricity to your home 24 hours a day!

Written in plain English with absolutely no technical terms, you are guided through the simple assembly process from start to finish. You'll also learn everything necessary to assemble the **EI SYSTEM** for resale and exactly how to install systems on a "lease" basis and collect monthly lease fees.

Also included are samples of classified and display ads that you can run over your name. The demand for the **EI SYSTEM** is so enormous that these successful (pre-tested) ads will actually bring you more business than you'll be able to initially handle!
